

GOWTHAM SAI KADALI

Cloud and DevOps Engineer

Hyderabad, India | +91-9966282514 | gowthamkadali2510@gmail.com | linkedin.com/in/gowthamsaikadali | github.com/gowthamsaikadali

PROFESSIONAL SUMMARY

Results-driven Cloud and DevOps Engineer with hands-on experience designing end-to-end CI/CD pipelines, containerized workloads, and cloud infrastructure on Microsoft Azure and AWS. Proficient in Kubernetes (AKS), Docker, and Terraform for scalable infrastructure automation. Experienced in integrating DevSecOps practices using SonarQube and Trivy to enforce code quality and security compliance. Strong foundation in Linux administration, cloud networking, and real-time monitoring using Prometheus and Grafana.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure, Amazon Web Services (AWS)

DevOps and CI/CD: Azure DevOps, GitHub Actions, Jenkins

Containerization: Docker, Kubernetes (AKS), Docker Compose

Infrastructure as Code: Terraform

Version Control: Git, GitHub

Monitoring and Observability: Prometheus, Grafana, Azure Monitor

Security and Code Quality: SonarQube, Trivy

Networking: Azure VNet, VPC, Subnets, NSGs, Load Balancers, Azure Firewall, VNet Peering, UDRs

Operating Systems: Linux (Ubuntu), Windows Server

PROJECTS

DevSecOps CI/CD Pipeline on Azure | *Azure DevOps, Docker, AKS, Terraform, SonarQube, Trivy*

GitHub: github.com/gowthamsaikadali/boardgame-end-to-end-project

- Architected a complete DevSecOps CI/CD pipeline using Azure DevOps with a self-hosted agent for a Java-based application
- Integrated SonarQube for static code analysis and Trivy for container vulnerability scanning, enforcing automated security gates
- Provisioned AKS and Azure Container Registry (ACR) using Terraform, enabling version-controlled and repeatable infrastructure deployments
- Configured Prometheus and Grafana dashboards for real-time application performance and cluster health monitoring

3-Tier Application Deployment | *Docker, Azure VMs, Linux, Windows Server, MySQL*

GitHub: Linux: github.com/gowthamsaikadali/3-tier-application-deployment-in-azure-linux-vm | Windows: github.com/gowthamsaikadali/3-tier-application-deployment-in-azure-windows-vm | Docker: github.com/gowthamsaikadali/3-tier-application-deployment-in-docker

- Containerized a Flask-based 3-tier application using Docker Compose, separating the frontend, backend, and MySQL database tiers
- Deployed and secured the application on Azure Linux and Windows Server VMs using Virtual Networks and Network Security Groups
- Performed a comparative analysis of container-based versus VM-based deployments, evaluating scalability, portability, and performance

Hub-and-Spoke Network Architecture on Azure | *Azure Networking, VNet Peering, Azure Firewall, UDRs*

GitHub: github.com/gowthamsaikadali/CONFIGURING-A-HUB-AND-SPOKE-ARCHITECTURE-USING-AZURE-FIREWALL

- Designed a Hub-and-Spoke topology with centralized Azure Firewall for unified traffic inspection and security policy enforcement
- Configured UDRs to route all inter-spoke traffic through Azure Firewall and applied NSGs for least-privilege network segmentation
- Validated end-to-end secure communication across multiple peered Virtual Networks with zero unintended traffic exposure

Terraform Portfolio Website Deployment on Azure | *Terraform, Azure VM, Nginx, Azure Blob Storage*

GitHub: github.com/gowthamsaikadali/Terraform-Based-Portfolio-Website-with-Azure-Blob-Image-Hosting

- Provisioned complete Azure infrastructure including VMs, networking, and storage entirely through Terraform following IaC best practices
- Deployed Nginx on Azure VM for static content delivery and integrated Azure Blob Storage for decoupled image asset hosting
- Implemented Terraform remote backend for centralized and collaborative state management

EDUCATION

Bachelor of Technology (B.Tech) — Electronics and Communication Engineering Ramachandra

College of Engineering, Eluru | Graduated: 2025

ADDITIONAL INFORMATION

Languages: English, Telugu, Hindi

Core Competencies: Problem Solving, Team Collaboration, Continuous Learning, Attention to Detail
